RE: Mr. Dominic Morgan
Pennsylvania Driver's License [REDACTED]

To Whom It May Concern:

I have serious concerns about the driving skills of Mr. Dominic Morgan (DOB [REDACTED] of [REDACTED] (alternate older address [REDACTED]).

It is my understanding that Mr. Morgan maintains a valid New Jersey driver's license, even though he is no longer licensed in Pennsylvania. I examined Mr. Morgan from an ophthalmologic standpoint several years ago, and he reported vision as low as 20/200 in each eye when I last saw him. I know that he has been judged legally blind after an examination by Dr. John D. Dugan, Jr. in Voorhees, NJ, and that he is presently receiving Social Security Disability payments because of his legal blindness.

I think that Mr. Morgan should be re-evaluated by your impartial examiner and his license revoked if he does not measure up to the appropriate visual standard. I would not want to be responsible for allowing a legally blind driver to be on the highway.

Sincerely,

Herbert J. Nevyas, M.D.
